

NEW Chennai rugs

1st April 2020

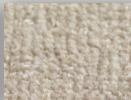

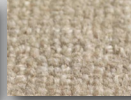

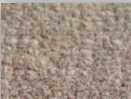

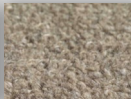

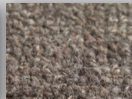

Chennai's beautiful random tip-shear texture can only be achieved by hand. Soft and natural colours are a celebration of pure undyed wool.

Hand-woven rugs

This durable 100% pure wool design is hand-woven by traditional methods and skilled artisans cut or leave loops to graduate the pile, creating its random texture via hand-shearing. This process of hand-weaving is a labour of love, hundreds of bobbins are wound by hand, and then manually wrapped around a warping wheel and onto wooden looms which are hand-operated, with no need for electricity. Even the edges of these beautiful rugs are hand-sewn with traditional needle and woollen thread.

Soft wool fibres

			
Horseradish	Salt	Cloud	Ammonite
			
Sparrow	Owl	Dunnock	

Jacaranda loves wool. Soft, warm wool fibres blend beauty and style with practical durability. Wool fibres are naturally coated in lanolin for stain resistance, alongside being renewable and recyclable. Moth-treated at manufacture, with a 5 year anti-moth guarantee. Chennai's subtle colour palette celebrates the beauty of natural undyed wool, but 'Salt' is dyed to achieve a cooler grey.

These NEW rugs are stocked in popular sizes: 170x240cm, 200x300cm & 300x400cm, RRP from £425.00 inc VAT. Also available in 4 & 5m broadloom, RRP from £60.00/m2 inc VAT
