## ACCESSORIES WITH CHARACTER

de Le Cuona tells the story of the new accessories through narratives of the characters who inspired them. Looking to texture and colour that appeal to these individuals this collection is well suited to busy yet sophisticated lifestyles. By creating a vision for each tale, Bernie de Le Cuona enlivens and elevates everyday home accents.

The collection assembles a selection of embellished cushions and throws, vases and bowls, decorative beads, occasional furniture and linen towels. There are 52 new products available in a variety of colours, some of which are highlighted here.
