SAVANNA

SUMMER 2020

SAVANNA

Our newest collection, Savanna, seeks inspiration from the open spaces and wondrous places that define these tropical grasslands. A vast array of colors, textures and patterns are inspired by these faraway lands. Feel the warm breeze and the heat of the sun, set on safari and catch a glimpse of a zebra grazing in the lush grass, meander through markets of brightly colored crafts. Get ready for a journey that engages all of your senses – welcome to Savanna.

Mosaic Mamba

The unique patterns of exotic reptiles inspire, MOSAIC MAMBA a multi-dimensional snakeskin design full of movement, depth and drama. Manila Hemp is dyed, cut and then hand-laid by artisans into a multicolor pattern atop a colored or metallic ground for a glamorous effect. Available in four chic colorways, MOSAIC MAMBA brings reptilian flair to the walls. Coordinating Manila Hemp solid grounds are available for complementary design options.

Safari: Cheetah Cloth

Take a walk on the wild side with the small scaled design classic CHEETAH CLOTH. This collection is woven on a jacquard loom for slightly raised texture in matte and shine yarns and subtle surface drama. The textile is then expertly laminated and applied with stain repellent finish for ease in installation. Available in three colors, CHEETAH CLOTH is a designer's spirit animal.

Safari: Zebra Cloth

Stand out from the pack with this boldly striped, large scaled animal print motif ZEBRA CLOTH. This collection is woven on a jacquard loom for slightly raised texture in matte and shine yarns for subtle surface drama. The textile is then expertly laminated and applied with stain repellent finish for ease in installation. Available in two colorways, ZEBRA CLOTH is a design stampede.

Sunwashed Linen

Soft, sun-bleached linens line the walls in shades inspired by the earthy tones of the Savanna to create SUNWASHED LINEN, a collection with a classic yet casual design vibe. Fibers are dyed prior to weaving for consistent coloring, then woven and treated with an anti-fray treatment for ease in installation. Available in 11 new colorways, SUNWASHED LINEN is relaxed yet refined.

Vinyl Canvas Linens

The look of refined canvas linens in a relaxed palette of soft, classic hues is now available in VINYL CANVAS LINENS. Engineered with the technology offered by today's performance wallcovering, this durable and washable Type II 20 oz. vinyl is suitable for contract, hospitality and residential use. Part of the Natural Illusions® Contract series, VINYL CANVAS LINENS is available in 13 tranquil colorways.

Raffia Retreat

Fresh two-color woven RAINFOREST RAFFIA is paired with new colors of refined ISLAND RAFFIA and the boldly textured AFRICAN RAFFIA in the new RAFFIA RETREAT collection. Woven of only the highest quality raffia, materials are harvested, sorted, cleaned and dried before weaving even begins. Once woven, the collections are expertly laminated and treated with a stain repellent finish. Available in ten colorways combined, RAFFIA RETREAT is classic PJ texture at its best.

HOW IT'S MADE

- RAFFIA RETREAT -

Raffia is hand sorted, cleaned and dried before the weaving begins. Due to the nature of raffia, there may be a slight variance in texture and color. This is part of the inherent beauty of natural wallcoverings.

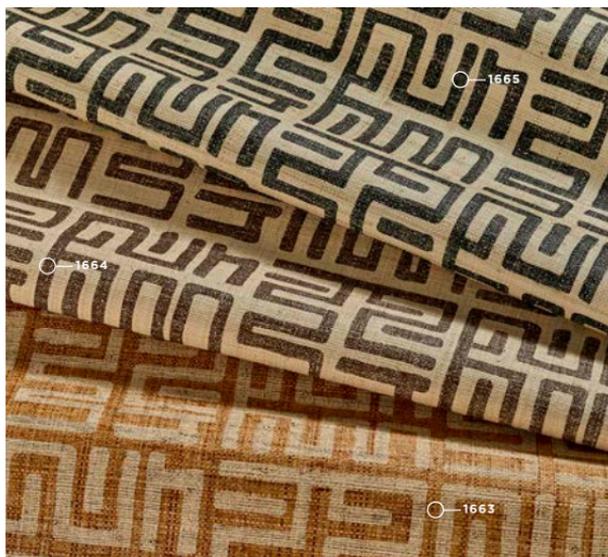

Woven of the highest quality raffia, only the top 20% of the crop is used.

For RAINFOREST RAFFIA, collection is yarn dyed then woven into a two-color design. AFRICAN RAFFIA is woven in its natural color and ISLAND RAFFIA is colored after weaving in our mill in Japan. For all collections, Japanese artisans take great care in the finishing process which includes:

- Steaming the raffia
- Straightening the raffia
- Lamination
- Applying stain repellent finish

Kuba Cloth

The art of traditional fabrics inspires, KUBA CLOTH, a geometric yet organic print design with a rich cultural story. A unique process using a laser cut gravure roller releases ink as it is rolled onto a variety of our handcrafted grounds for a more consistent print. Available in six colorways, KUBA CLOTH is full of eclectic charm.

Savanna Weave

A boldly scaled graphic pattern with a touch of tribal meets a fresh palette in, SAVANNA WEAWE. Paper is dyed prior to weaving, cut into thin strips and woven into a largely scaled, two-color diamond design that is virtually seamless. Meticulously laminated, this mix of a bold pattern with fresh colors creates a striking statement for the walls. SAVANNA WEAWE is available in 14 colorations from soft greys and blues to rich pink hues.

Serengeti Weave

Traditional craft basketry inspires, SERENGETI WEAVE, an airy and classic paperweave full of dimension. Handcrafted by skilled artisans, a combination of two to four colors of paper yarns are dyed, cut into strips of varying widths and woven together. Carefully laminated, this paperweave is virtually seamless. Available in eight colorways, SERENGETI WEAVE has a perfectly peaceful palette.

Saharan Straw

Rustic Saharan sunsets inspire, SAHARAN STRAW, a modern take on a horizontal grasscloth weave. Natural banana and cotton fibers are woven together and laminated atop a printed colored paper for a unique juxtaposition of modern art and an organic weave. Available in four colorways, SAHARAN STRAW has a unique design that is sure to test the sands of time.

Cape Town

The peaks and valleys of a coastal landscape inspire, CAPE TOWN, a large-scale graphic basketweave with a modern beach vibe. In a unique handcrafted process, authentic water hyacinth is colored, and hand laid by artisans in a multistep method to create a woven pattern that makes a dramatic wall statement. Available in six colorways, CAPE TOWN adds the WOW factor to handcrafted wallcovering.

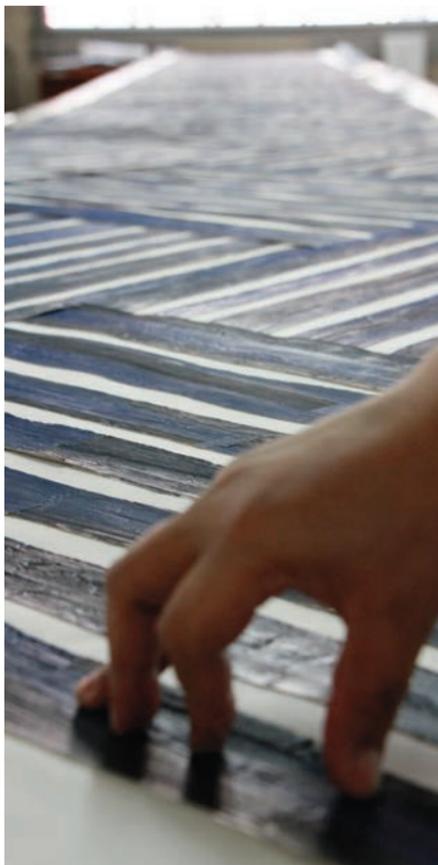

— 6753 PENINSULA PATH

HOW IT'S MADE

- CAPE TOWN -

Authentic water hyacinth plants are harvested, then stalks are cleaned, bound and left to dry in the sun.

Hyacinth is flattened and laminated atop a paper substrate. Artisans then apply a color wash in various applications – a dry brush technique, a light color wash and overall painted application to the hyacinth ground for different effects. Due to the natural characteristics of the water hyacinth, how it absorbs the dye and the type of color application, some colors exude a beautiful watercolor effect with a variance of highs and lows, while others have a more saturated look.

After coloring, the hyacinth ground is hand cut into long strips in varying widths. These strips are hand-laid by artisans into a large scale basket weave design atop a white non-woven backing paper.

Lastly, a special pressing process is completed and finished with a protective clear coat.
