JANE CHURCHILL

FABRICS AND WALLPAPERS

2020 COLLECTION

The new Jane Churchill collection combines graphic shapes with bold decorative textiles, emphasising colour and pattern. Designs include vibrant prints, delicate embroideries and a striking range of handcrafted weaves. This imaginative series of fresh and modern patterns offers wide appeal, suiting all styles of interiors.

VITA, which inspired the name of the decorative fabric collection, features painterly florals in exuberant colourways. Its design originated in a bespoke painting and the artist's free-flowing style remains evident in its rich, informal pattern. SIBELLA is also influenced by an artist's palette of watercolours, with its textural, impressionistic florals. WALK IN THE PARK, a playful, contemporary toile is another highlight. Evoking contemplative Sunday afternoons, the design uses gradations of tones to create a soft, characterful look.

BAMBOO PALM

NEISHA

VITA COLLECTION

Among embroideries, CORBELL has a 'back to nature' feel with its delicate bunches of hedgerow flowers and leaves, while LISBETH, an elegant small blossom on linen, perfectly complements modern-country schemes. TRESCO's interpretation of large leaf silhouettes has a contemporary feel and TAMBOUR's luminous white-tipped leaves offers a sumptuous three-dimensional effect, as does the colourful BAMBOO PALM.

A stunning range of handcrafted, kilim-style designs provides a graphic contrast, while complementing the florals beautifully. Inspired by a vintage Indian patchwork document, IMRI's printed patch effect features zig-zag hand-stitching, while RANI's combination of stitch and block print in burnt oranges and teals has handcrafted appeal. RAE, with its sewn applied tape, suggests graphic simplicity. Inspired by an antique kilim embroidered robe, intricate NEISHA has a rustic, tribal feel.

RANI

IGGY

MARLA

SHELLEY

IRA

This season's weaves offer a bold take, with a series of strong supporting graphics. TARKA features a distinctive geo pattern against bright or inky backgrounds; IRA's bold-hued irregular triangles recreate a classic, kilim look; APSLEY'S Ikat-influenced stripe is a contemporary, go-to fabric and IGGY features a dense, geometric repeat in a host of retro brights. MARLA offers a stylish small-scale Ikat stripe design in strong tones. Completing this rich collection is SHELLEY and ROSMAR, featuring a wide selection of tactile woven plains in an extensive colour palette, from soft neutrals to the boldest of brights.
