

THE ART OF
PICTURE HANGING

COLLIER WEBB

ABOUT US

Collier Webb are designers and makers of luxury lighting, furniture and hardware for the world's most beautiful interior spaces. Combining traditional and cutting-edge techniques, our passion for design and craftsmanship is ingrained in everything we create.

A third generation British family business with forty years' experience in the industry, Collier Webb has gained a reputation for excellence among leading UK and international designers.

Our in-house designers work closely with our talented craftsmen to produce unique designs, each handcrafted at our South Coast Foundry for a wide variety of luxury projects, including hotels, retail spaces, restaurants and private interiors. Led by founder and Managing Director Geoff Collier and aided by his daughter Danielle, they are ably supported by their team of over 50 employees.

PICTURE RAIL SYSTEM

Our brass Picture Rail System's are handcrafted to order ensuring they complement and illuminate art work perfectly, whilst fitting the display space seamlessly.

Suitable for galleries, public spaces and private residences, we offer a wide range of standard and custom hardware in finishes to suit any décor.

Our team of experts are on hand to advise on every step of the hanging process from selecting the correct components to installation. If required, their knowledge and experience will be able to help you with considerations such as wall fixing, chain loading, lighting and aesthetics.

LIGHTING

Our picture lights can be specified for wall or rail mounting. Our Articulated Light is fully adjustable for angle and projection and the shade can also be rotated to change the direction of the light and minimise scatter.

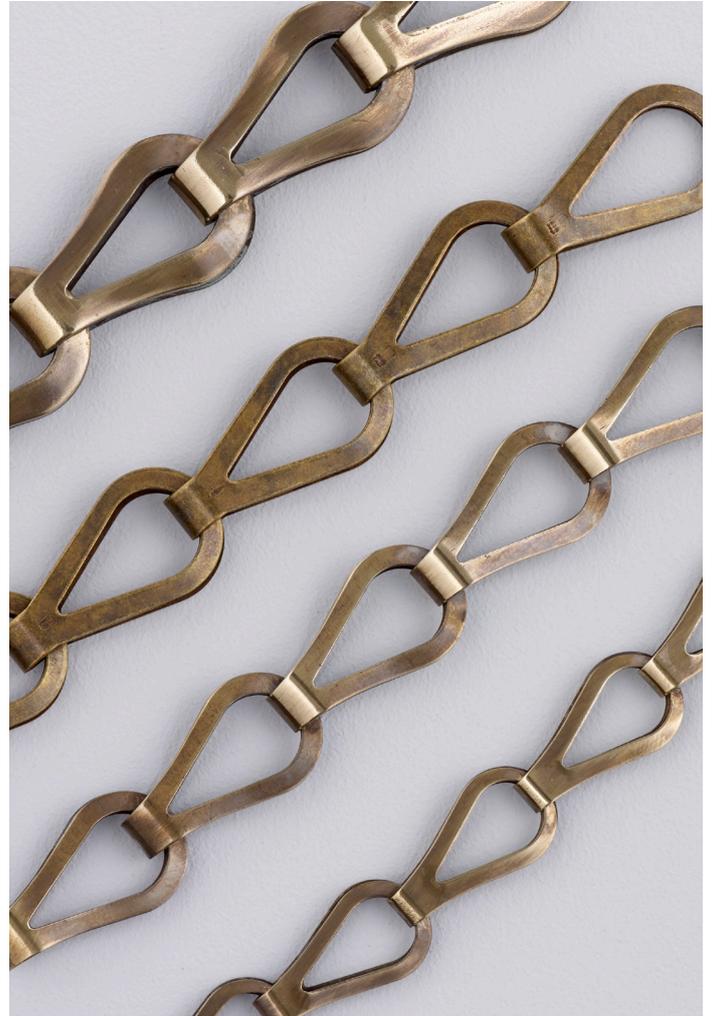

Our recommended light source is high CRI LED but if preferred, incandescent bulbs can also be selected.

CHAINS

Aesthetics and weight loading are important considerations in your choice and we offer five different sizes of traditional picture chain which are suitable for all sizes of artwork, tapestries or mirrors.

For use with rails, we usually recommend using a pair or parallel hanging chains.

We can advise on a range of decorative chains which may also be specified.

FINIALS

For simple and discreet finishing of the pole ends, we offer a choice of plain and stepped end caps.

For a more decorative flourish, you can select from our wide range of classic and traditional finial designs, all cast in our South Coast Foundry.

BRACKETS

Our traditional range of end and centre brackets have an elegant period design and offer secure mounting on solid walls.

Our round base ring brackets are simple, discreet and modern. When fitted with our optional rear spigot, they give extra support for heavier pictures and more secure mounting on weaker walls.

As a guide, it is recommended that brackets are placed at approximately one metre intervals.

POLES

Each picture rail is crafted in heavy gauge brass for maximum strength to provide exceptional support and eliminate flexing. Standard sizes are 25mm/1" and 38mm/1½" but smaller and larger diameters can be custom specified.

Subject to finish, continuous lengths can be supplied up to 5m/15', but for safe transportation, they are usually shipped in 2m/6'6" lengths and supplied with threaded joiners for assembly on site.

HOOKS

Our 'S' hooks are designed for maximum strength and allow your artworks to be easily unhooked and moved.

For our 25mm/1" rail, we also offer a sliding hook which cannot be unhooked but slides along the rail to adjust for different width paintings.

We also offer a range of link hooks and frame brackets to help with attaching the chain.

LONDON SHOWROOMS
