

Product Designer

Oficina Inglesa is offering an exciting new position to an experienced Product Designer.

Using your experience and understanding of technology, materials, and manufacturing methods, you will be responsible for the design, development and prototype testing of a new collection for the company.

You may also be expected to work on existing design and offer ways to improve the design and production process from time to time.

Advanced knowledge in 3D rendering and AutoCAD is an essential requirement.

Please submit CV's to: eduardo@oficinainglesa.com
