

ATELIERS

LONDON

Senior CAD Designer (Furniture)

West London

Ateliers London is a leading British designer and manufacturer, specialising in luxury upholstery and bespoke furniture for some of the world's leading interior design professionals, spanning high end residential, hospitality, superyacht and International luxury sectors.

Based in London, our offices, showrooms and production facilities are home to a team of over 40 of skilled craftsmen and technical designers, working in a variety of luxurious bespoke materials. Combining traditional craftsmanship, modern techniques and an enviable knowledge of furniture, we deliver the finest in custom made furniture.

The Role

As part of our ambitious growth, we are looking for an experienced Senior CAD Designer, with a background in luxury upholstered furniture and hard case products, to join our dynamic team.

Working on an exciting mix of bespoke furniture projects, you will take a lead position on both technical and creative designs. The role will involve Interpreting concept sketches and technical designs through to creating manufacturing and production drawings for the workshop teams.

The ideal candidate will have over 4years experience designing furniture from concept through to finished production, with experience managing other team members. This is a great opportunity with superb career progression opportunities to help grow and develop new product ranges and CGI plans.

Reports to: Commercial Director

Key Responsibilities and Duties

- Design and develop 3D models of bespoke upholstered furniture and hard case products using Solidworks.
- Create full working production drawing packs and templates, clearly noting all details for all departments involved in the manufacturing cycle.
